# Your school has entered the 2022 Clean Air Scooter Challenge and they need your help!

We are delighted that the Clean Air Scooter Challenge is back again this year. The challenge week encompasses Clean Air Day (16 June) and resources will be focused on clean air, scooting and active travel on the school run. Why not access the on line version of our KS1 and KS2 Clean Air books: **'A Wild Walk to School'** and **'A Right Royal Adventure'** as part of your clean air fun this week? [myjourneyhampshire.com/education/air-quality-for-schools/air-quality-resources/](https://myjourneyhampshire.com/education/air-quality-for-schools/air-quality-resources/) Schools can win Scooterpods, scooters and pupils can win vouchers for fun days out with the family. Could you help your school to win the challenge this year?

## The challenge

To get as many children as possible scooting to school every day from **13 to 17 June 2022**. The schools with the highest average number of children scooting will win a Scooterpod or scooters.

## Scoot from your Boot

Throw the scooters in the back of your car if you live too far away to scoot all the way to school. Then park sensibly 5-10 minutes away from the school site so that you don't cause unnecessary congestion and danger to children around the school gates. Scooters are fairly compact so don't take up much space at home or in the car. Even younger children can go a reasonable distance at a good pace. They are a great option if you are short of time on the school run.

## Top tips for scooting

**If your child has a scooter and you wish them to participate, please keep them safe scooting to school by ensuring they understand our tips for a safer scooting experience:**

1. Pedestrians have priority on the pavement.
2. Stay close to your parent/carer.
3. Be aware of other people using the pavement and be polite and considerate to them.
4. Take extra care when crossing vehicle entrance/exit points e.g. driveways.
5. Look all around before you start moving, stop moving or change direction, and look where you are going.
6. Keep away from the kerb.
7. Wear a helmet and bright, fluorescent clothing to ensure you can be seen.
8. Walk with your scooter when crossing the road, in crowded areas or other busy areas e.g. the school playground.
9. Carry things in a rucksack, not balanced on the handlebars.
10. The Highway Code tells us that the speed limit on pavements is 4mph.

**Good luck and have fun scooting!**
